Dumas ... dealing with a tribute to the figure of one of the great artists of French literature, author of the famous novel "The Count of Monte Cristo" which gives name to one of the most important Cuban brands of all time, Montecristo, this piece of sublime beauty could not but be in itself a perfect stereotype of everything that the school of Cuban artisans and designers has bequeathed to the world of smoking accessories, especially humidors.

The refined image that is contemplated, enriched by the Fleur de Lis, a symbol of France, is a compendium of the virtues that Cuban artists have been able to transfer to the humidors designed by them: elegance, refinement, simplicity, extreme care in the choice of materials, and above all an infinite love when working with wood, are the hallmarks of a work that will evidently come to be remembered for its excellence in all aspects, and for the long service it will give to those who trust in it for the conservation of their precious Habanos. Exclusive series of only 20 numbered humidors, handmade with precious woods. \*

These humidors have a metal plaque with the Fleur de Lis and they were made of cedar, poplar and okume wood, the humidors have a humidity control system and a capacity to store more than 100 cigars. Harmonizing the perfection of the finish with its elegant design, DUMAS® "PRIME" bet for the excellence of the product.

We wish you a pleasant enjoyment of our product. For bigger information or attendance, do not hesitate to contact us.

Thanks.
